

KRISTIN SCROGGIN SPEAKER NEEDS

MICROPHONE/SOUND

- Kristin definitely would prefer a lavalier microphone/body mic or a headworm ear-set, but can absolutely make-do with a hand microphone. She moves around too much to just use a podium microphone.
- NO SOUND or INTERNET CONNECTION is required for our presentations!

AUDIO VISUAL

- Kristin uses a power point so a projector /large television will be needed.
- She can either provide the presentation on a jump drive or email the presentation to you prior to the event.
- If you have a clicker available that would be great, she often brings her own just in case.

ARRIVAL

- Please let us know when you would like Kristin to arrive to get set-up for your event. We will come as early as you need for your peace of mind. We usually come at least 30 minutes early.
- Kristin is a very low-maintenance speaker! We realize you're trying to rush around to coordinate your event! Don't feel any pressure to entertain. She will usually just go find the sound person and get set up asap!
- Kristin NEVER eats before she speaks so please don't worry about breakfast or lunch orders!
